Education

Thapar Institute of Engineering & Technology, Patiala

2025 – 2029

B.Tech in Computer Science

IIT Guwahati

2025 – Present

Micro Degree in Cyber Security

DAV Public School, Amritsar

2025

Class XII, CBSE

Technical Skills

Languages: C, C++, Python

Cybersecurity: Ethical Hacking, OWASP Top 10, Vulnerability Assessment, Reconnaissance, CVE, CVSS Analysis, Threat Analysis & Research & OSINT.

Web Technologies: HTML, CSS, JavaScript, React, Tailwind CSS, Vite, Next.js (Learning)

Tools: Git, GitHub, Postman, Firebase, Kali linux, Parrot os

Projects

DanishRecon – Advanced Vulnerability Reconnaissance Platform | *Python, PyQt5, NetworkX, SQLite*

- Developed a unified security platform to automate multi-stage reconnaissance workflows including service discovery, vulnerability scanning, and subdomain enumeration.
- Implemented a threat context engine mapping discovered services to CVEs with CVSS scoring and MITRE ATT&CK techniques for risk-based prioritization.
- Designed visual attack-path mapping using NetworkX to analyze how multiple vulnerabilities chain into exploitable attack vectors.
- Built automated reporting system with compliance mapping (PCI-DSS, NIST, CIS) and multi-format export (PDF, HTML, JSON).

Aegis – Agentic AI for Securing Home IoT Devices | *Python, Security Automation*

- Developed a plug-and-play IoT security system using autonomous threat detection and deception techniques (honeypots).
- Implemented continuous device discovery and profiling to identify vulnerabilities across connected devices.
- Designed a unified monitoring dashboard to visualize device risks and improve overall security posture.

Protego – AI-Powered Personal Safety Platform | *FastAPI, PostgreSQL, React*

- Built a real-time personal safety platform with SOS alerts and trusted contact notifications.
- Implemented JWT-based authentication and secured REST APIs using FastAPI.
- Integrated Twilio SMS alerts and AI services for automated distress detection.

Certifications

Web Development Certification

Udemy

C & C++ Programming Certification

APTECH, Amritsar

Ethical Hacking

Udemy

Achievements

Secured **1st Place (Team)** at Sabka AI Hackathon 2025, organized by Thapar Institute of Engineering & Technology in collaboration with The University of Queensland.
